

When it comes to improving lives and building a stronger community, United Way is leading the way. Our experience tells us that we can best help the most people by addressing the underlying causes of problems.

We are focused on what matters most to you: Successful Kids, Strong Families, Healthy Citizens, Independent Living and Community Preparedness. United Way funds programs and supports initiatives that provide solutions in these five Focus Areas.

With your support, we are creating lasting changes in people's lives right here in central Oklahoma. Together, we're building a stronger, healthier and more compassionate community.

Focus Areas

The goal of United Way is to provide access to the core elements critical to success for individuals, families and our community: Health, Education, Financial Stability and Quality of Life. United Way does this through our five Focus Areas. You make the greatest impact by investing in United Way.

Focus Areas show exactly how your contribution will be invested. These areas guide every aspect of our work, funding outstanding programs with measurable results and developing initiatives when needs are not being met. Your gift to United Way supports all five Focus Areas. Agencies are listed in each Focus Area according to United Way funded programs.

Partner Agencies

When you contribute to United Way, your gift supports programs at our local Partner Agencies. Our approved partners are the best in the business. Held to higher standards of accountability than all other local non-profit organizations, they are the most effective service providers in our community.

Our Partner Agencies have been carefully selected and are reviewed every year. You may support all of them with a gift to United Way of Central Oklahoma or you may direct your donation to a particular agency using the codes listed inside. In order to maintain accountability, United Way only accepts designations to these approved organizations.

Your community.
Your investment.

*Together, we're building a stronger, healthier
and more compassionate community.*
